## SOFTWARE DEVELOPER EXPERIENCE

### Junior Full-Stack Software Engineer | 4.Events | Jul 2023 - Present

- As a Junior Fullstack Developer, I contribute to maintaining web systems and developing new features. In terms of tools, I utilize Git/Bitbucket, Jira, and Docker. Regarding agile methodologies, we apply Scrum.

### AdTech Internship | Object1ve | Abril 2023 - Jul 2023

- Internship experience in adtech, where I developed and implemented ad maintenance using Google Tag Manager and AdManager. I also assisted in maintaining WordPress themes.

### Junior Front-End Developer | Private Code Soluções Digitais | Out 2022 - Abr 2023

- As a Junior Front-End Developer, I assisted in the maintenance and development of web systems, conducting functionality tests using technologies such as Ionic Framework, Node, React.js, Laravel, MySQL, Docker, and Git.

### Software Development Internship | Slideworks | Mai 2022 - Out 2022

- As a software development intern at a Software House, I applied modern technologies such as Node.js, React.js, Next.js, and TypeORM, as well as using tools like Docker and Git/Github. Integrated into remote squads, I adopted agile practices like Scrum, aiming for efficient project delivery..

### Software Development Internship | Mais Top Estética | Jan - Mai 2022

- During my internship in Innovation and Technology, I was responsible for maintaining the main system (Plus) of Mais Top Estética. Using PHP, HTML/CSS, and Bootstrap, I implemented financial features, solved bugs, and conducted code reviews.

### Software Development Internship | Cazalab | Nov 2020 - Nov 2021

- As a web development intern, I worked on real estate system development using Python (Flask, Scrappy), Docker, Bootstrap, and Google Cloud. During this period, I utilized Git/Github for version control.
